

Manufacturing and installation of 66 kV electrical switchgear for the construction of a number of 66 kV electricity transmission stations

Tender No.:63/2025/BTB (4661/2025/5100)

Controlling Authority Reference Number:4661/2025/5100

Tender Description

The Electricity and Water Authority (EWA) intends to embark on a project to build new 66 kV power transmission stations to meet the growing demand for electricity in several areas of the Kingdom of Bahrain. The 66 kV switchgear manufacturing and installation works package is one of the project's works packages and will be executed through a limited international tender. The scope of this tender includes the following: design, manufacture, supply, transportation, installation, testing, and commissioning of new 66 kV power transmission station equipment, including switchgear, control and protection systems, integrated control system, communication systems, station equipment interconnection cables, etc.
