Procurement Title

Supply of Waste Collection Bins and Containers

Note: this is a re-launch of Lot 1 from the previous tender (Ref. AUA_Sida_Supply_Tender_01, 21 June 2024) due to a lack of qualified applications.

Contracting Authority

American University of Armenia Fund

Project Title

Sevan Waste Sorting, Armenia

Short description of the contract

The purpose of this contract is purchase of wheeled containers and bins for the Town of Sevan, Armenia, in order to enable local waste operators to organize systematic collection and transport of dry municipal solid waste fraction – recyclables, from households to a waste sorting center.

As a consequence, it is expected that the amount of recyclable waste in Sevan will increase and that the quantity of landfilled waste will decrease, improving the municipal solid waste management. This pilot project will provide an example for national Armenian policy making and practical experience for other Armenian towns to consider. This action will improve the quality of life of citizens by raising environmental standards in Armenia towards EU levels (overall objective).
