

Public Tender Announcement for Companies _____

Cabinda Gulf Oil Company Ltd (CABGOC), a subsidiary of Chevron, one of the main oil companies in Angola, hereby announces a public tender for the supply of the following material:

Public Tender Number: 2025.05.09 - RFBA - 354 - PROD OPS

Scope of Work: _____

Closing Date: 20 June, 2025

The Contractor must provide the following services:

The Contractor will provide services related to Process Hazard Analysis (PHA), which includes, Operational Hazard Analysis (HAZOP), Operational Hazard Analysis - Protection Levels (HAZOP-LOPA), Scenario Analysis (What-If), Checklists and Hazard Identification (HAZID), as well as research and monitoring services of our production facilities.

The work described in this Agreement is considered complete, including, without limitation, labor, software (PHA Pro Tool), mobilization and demobilization of personnel, unless expressly stated herein, as provided by the Company.

The results of the studies will allow the Company to implement the necessary risk reduction plans to ensure the treatment of the main hazards, emergency preparedness, and, consequently, safe operations.

The Contractor must have proven experience in carrying out Process Hazard Analysis (PHA) studies, in accordance with international standards and Chevron guidelines.

Qualified companies interested in being considered for the competition described above may access the page <https://angola.chevron.com> in the Suppliers section, Public Tender, fill in the supplier information form and send it to the email addressconcurso@chevron.com within the period defined on the website. _____
