Contact Information: Chris Krohn, ckrohn@caymanport.com

Close Date: Jan 31st 2025, 5:00 PM EST

Days Left: 22

Project Description:

The Port Authority of the Cayman Islands is seeking to replace its compute, storage, and backup servers. The Port Authority is seeking virtualization and storage clusters that will provide modern, highly available, secure hosting for our virtual machines and data storage. Additionally, we are seeking backup secure, resilient backup storage clusters that work with our Veeam backup solution.
