Call for tenders for the service market GIN23004-10009

Enabel is the Belgian development agency. We implement Belgian international development policy. Guinea has been a new partner country for Belgian cooperation since early 2016. A quick-start program (€10 million) has already been finalized. A first, more coherent and substantial bilateral portfolio (€45 million) for the period 2019-2023 has just been completed. The second bilateral portfolio (€34 million), for the period 2023-2027, has been launched immediately afterward.

The agency also actively seeks missions and funding from other donors. As a social enterprise, Enabel is an attractive partner for institutions such as the European Union and the World Bank.

It is in this context that Enabel is launching a call for tenders for this Development Programme.
