Construction Agency- Upgradation of Government Composite School in Kalwari, Agra, Uttar Pradesh, India

INTRODUCTION

Kalwari, Agra has been finalised for a school upgradation project by CURE to improve the school infrastructure and learning environment to sustain children in school. The aim of the project is to enhance school enrolment and participation by improving school infrastructure, especially water and sanitation.

ABOUT THE ORGANISATION

Founded in 2001, the Centre for Urban and Regional Excellence (CURE) is a non-profit organization committed to nurturing inclusive and sustainable development within India's urban, informal, and low-income communities. Employing a hyperlocal, ecosystem-centered approach, CURE places a strong emphasis on community engagement, valuing residents as crucial partners and leaders. Its initiatives span from facilitating access to vital services such as household toilets and clean water taps to empowering livelihoods through skill development and small-scale enterprises.

SCOPE OF WORK

The infrastructural upgradation of Government Composite School in Kalwari, Agra will involve:

- Demolition Work
- Safe disposal of debris under the supervision of the School Member Committee and Head In-charge
- Construction of RCC Framed Structures: 2.1. New classroom adjacent to existing primary block. 2.2. New block housing an audio-visual library, multipurpose hall, and stage. 2.3. Student toilet block with separate facilities for boys, girls, and persons with disabilities
- Construction of Load Bearing Structures: 3.1. Extension of the staff room
- New Load Bearing Structures with Stone Slab Roofing: 4.1. Extension of the kitchen veranda. 4.2. Covering of the corridor
- Steel Frame Works: 5.1. Construction of a corridor in front of primary block classrooms.
- Recasting of Existing Classroom Slab from Junior Block
- Construction of DEWATs (Decentralised Wastewater Treatment System) Plant
- Construction of Groundwater Harvesting and Recharging Unit
- Retrofitting and Upgrading of Existing Staff Toilet
- Landscaping as per Requirement
- All new and retrofitted works include electrical and plumbing
- Extra works like barricading and providing tentage for school students during construction work is also involved.
