INTRODUCTION

World Wide Fund for Nature Zambia (WWF Zambia) is part of WWF International, the world's leading independent conservation organisation with a global network in over 100 countries. Our mission is to stop the degradation of the planet's natural environment and to build a future in which people live in harmony with nature, for the benefit of both people and nature. The organisation has been working in Zambia since 1962; focusing on wildlife, forests, freshwater as well as people and livelihoods

OBJECTIVE OF THE ASSIGNMENT

WWF Zambia is implementing the Climate Adaptation and Protected Areas Initiative (CAPA) which is premised on the use of nature-based solutions (NbS) to strengthen climate resilience for people and biodiversity rich ecosystems in the global South. The initiative is funded by the Global Affairs Canada (GAC) through the International Institute for Sustainable Development (IISD). In Zambia, among other interventions, the project is supporting the procurement and translocation of various wildlife species for the restocking of Sioma Ngwezi National Park to improve wildlife populations.

It is against this background WWF Zambia is looking for suitably qualified and competent service providers to submit bids for the supply, capture, translocation and safe delivery of various wildlife species during the 2025 wildlife translocation window and under the live capture quotas approved by the Department of National Parks and Wildlife (DNPW). The species earmarked for restocking are outlined in Lots below:
