Original text

Electriciens sans frontières is a non-profit organization (Association loi 1901), an international solidarity NGO committed to improving the living conditions of disadvantaged populations and contributing to the sustainable development of the poorest countries in the areas of energy and access to water.

As part of its Café Lumière program – towards the empowerment of local off-grid energy access sectors, the Promoter signed a partnership agreement with the Togolese government and obtained funding from the French Development Agency and other donors.

The purpose of this business consultation file is to entrust the execution of services relating to the electrical installation and network of six Café Lumière type photovoltaic production units in the following villages:

- ☐ ABOUDIKPE (municipality of HAHO 3)
- ☐ AGBEDOUGBE (municipality of HAHO 2)
- ☐ AGOTO (municipality of HAHO 1)
- ☐ GUEDEGLELE (municipality of HAHO 1)
- ☐ HOUNON KOPE (municipality of HAHO 1)
- ☐ SOMONE KOPE (municipality of HAHO 3)

These services require in particular skills in design, supply of suitable equipment, construction, installation and training in compliance with the safety rules and regulations indicated in Appendix 1 (AFD regulations extract).
