CONSULTANCY STUDY FOR VULNERABILITIES AND CAPACITIES FOR RESILIENCE AND ADAPTATION TO CLIMATE CHANGE – RESILAC*2

Action Against Hunger (ACF) is a global, independent and non-for profit humanitarian organization dedicated to combating hunger and malnutrition. As of 2024, the ACF International Network operates in 56 countries, providing support to vulnerable communities worldwide. ACF has been operational in Nigeria since 2010 and has been the leading organization in strengthening health and nutrition security in Northern Nigeria, employing a multi-sectoral approach to address significant humanitarian needs. ACF is recognized for its commitment to accountability, innovation, and collaboration towards addressing global hunger and malnutrition.

The Lake Chad Inclusive Economy and Social Recovery (RESILAC*2) project, co-funded by AFD and the EU, aims to contribute to economic recovery and strengthen the resilience and social cohesion of populations in Nigeria, Cameroon, and Chad. In Nigeria, the consortium project, comprising ACF (lead), CARE, NEEM Foundation, NADA and REBHI is implemented in 3 LGAs of Borno state namely MMC, Jere, and Konduga.

As part of the RESILAC*2 project, the study will be conducted to analyze the local vulnerabilities, existing adaptive capacities, and resilience mechanisms that communities, authorities, and civil society employ to cope with climate change. This will help define concrete actions to strengthen the capacities of local populations to cope with climate change. The proposals envisaged should consider gender sensitivity.

Geographical scope coverage: Jere, MMC and Konduga LGAs of Borno State.

Profile of the consultant (Qualification and Experience)

- A master's degree in environmental science, Climate Change Studies, Development Studies, Social Sciences, or related fields. PhD is an added advantage.
- At least 7 years of experience in vulnerability assessments, climate resilience research, and disaster risk management and adaptation assessments.
- Strong understanding of Vulnerability and Risk Assessment models and tools.
- Proven expertise in gender analysis and economic development in conflict-affected regions especially within targeted LGAs.
- Extensive experience in quantitative, qualitative, social and economic analysis.
- Familiarity with the local and cultural context of Jere, MMC and Konduga LGAs of Borno State.
- Extensive experience working with International/National NGOs specifically within the context of emergency and developmental response in northeast Nigeria.

Excellent writing and oral skills, as the person is required to prepare and finalize a report in English, together with a set of accompanying materials.

- Extensive experience in data management and analysis, including data collection tool design, database design, management and data quality checks.

- Proficiency in Microsoft Office applications (Word, Excel, PowerPoint).
- Proficiency in English Language and in local languages including Hausa. Kanuri/Shuwa is an advantage.

SCOPE OF WORK:

The Data Protection Regulation Compliance Audit will involve but not limited to the following activities:

- Prepare a detailed work plan for the study.
- Establish and lead the study team.
- Select and implement methodologies for conducting the study.
- Conduct a literature review of existing studies related to climate change impacts.
- Select pilot areas for the project in consultation with the RESILAC*2 Project Implementation Unit (PIU).
- Identify main communities and vulnerable groups.
- Assess the quality and quantity of available climate and socio-economic information.
- Evaluate exposure, sensitivity, and adaptive capacity.
- Assess potential impacts of climate change on community livelihoods.
- Propose adaptive measures based on local capacities and knowledge.
- Engage relevant stakeholders throughout the assessment process.
- Ensure gender representation in consultations.
- Coordinate with all relevant stakeholders.
- Consolidate findings into a working document for stakeholder consultation.
- Prepare and submit the study report for review and finalization.

All interested consultants should send Expression of Interest electronically from Monday 23rd May 2024 by 12noon to: supply@ng-actionagainsthunger.org with subject “Consultant for Climate Vulnerability Study – RESILAC*2.” in order to receive the full ToR. Proposal without request of the full ToR will not be accepted. The prospective consultancy is expected to submit a brief methodology, financial offer and expected output with concept note while responding to this expression of interest (EoI)

NOTE: The sending of full ToR will commence from Monday 26th May 2025 until the deadline of the submissions to all expressions of interest from prospective consultants and submission of proposals will be on or before **6th June 2025 by 12:30PM**, Nigerian time.
