

The topic: General Display System (GDS) for Air Navigation

Reference number: 2024/Tender/0038

Publication date: May 15, 2025

Tender purchase amount: 7,000 QAR

Project Brief: The current system has become outdated after more than ten years of installation and operation and needs to be replaced due to the lack of spare parts and technical support for it in order to support the increase in air traffic and enhance safety at the airport, as this system provides the air traffic controller with the necessary information on an ongoing basis by collecting and reading it on one screen.
