### Project Description:

The Port Authority of the Cayman Islands (PACI) is the Statutory Authority responsible for >95% the import and export of trade in the Cayman Islands, as well as supporting the cruise industry. With 3 Port Facilities across the islands (The Port of George Town, The Port of Creek, the Port of Spotts) and a minor berth in Little Cayman, the PACI is required to comply with the International Ship and Port Facility (ISPS) Code as mandated by the United Kingdom's (UK) Department for Transport

(DfT), which governs the security requirements required to ensure that this strategically important piece of Critical National Infrastructure is kept safe and secure, allowing the Cayman Islands to enjoy prosperous maritime trade.

This project is for the provision of Contracted Security Officers to conduct security operations in support of those requirements, and of those at other locations owned by the Authority.
