Project title: The Sustainability and Value Added in Agricultural Supply Chains in Indonesia (SASCI+)

Country: Indonesia

Capacity Building of Robusta Coffee Farmer Groups and Women Farmer Groups in Tanggamus District, Lampung Province.

As a federal enterprise, the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH supports the German Government in achieving its objectives in the field of international cooperation for sustainable development.

Agricultural commodities like coffee, cocoa, natural rubber, or palm oil play an important role in rural development in many developing and emerging countries where they form the basis for the life of millions of households. However, their production and processing are accompanied by numerous ecological, economic, and social challenges. To address these challenges, SASCI+ established an Integrated Development Partnership with Private Sector (iDPP) with Nestlé called Coffee++. New approaches are integrated into the iDPP collaboration, such as Regenerative Agriculture and agroforestry approaches, for further enhancing productivity and adaptation to climate change impacts. The main focus from the project will be addressing the adverse effects of climate change and low incomes by building more resilient communities through regenerative agriculture and develop suitable training and capacity building.
